

How to find the Bioteknologi building for the first session of the CauBio PhD-course (in pictures)

This is the building we will be in from 10-12 on Monday. The bus stop is called Universitetet i Ås. Go towards main entrance. The Bioteknologi building is the modern looking one on your right.

The building can be entered from various sides. Below is the entrance facing the old part of campus.

Enter the most modern looking part of the building and find the lift. This is called fløy A. Take the lift to the 3rd floor. Room BT 3.A.11 is at the end of a long corridor.
