

Intercultural Spanish Learning Programs

The programs are designed to enhance students' competencies in Spanish in a multi-cultural context. Beginning, Intermediate and Advanced Spanish courses are taught. This is a recommended option for students who need to improve their Spanish language capabilities in order to enroll in a program that requires an intermediate or advanced level of Spanish. We offer various levels of intensity for these programs:

Degree of Intensity	Hours Per Week	Cost per person: individual lessons
Highly Intensive	20	\$ 900
Intensive	16	\$720
Extensive	6	\$270

*Group lessons may be available at a discounted rate if enough students matriculate, and contingent upon them having similar levels of the language.

Home-stays and cultural immersion

This is an opportunity to live with a Costa Rican family and be immersed in the Spanish language and local culture, while still having access to all the EARTH campus facilities, and lush, tropical surroundings. You may choose this option, or you may decide to live on campus in student dorms.

Home-stay	\$172,5 per week	3 meals included
