6 MOST IMPORTANT ASSIGNMENTS

A large part of the work I have done in Noragric over the past few years has been assignments, most of them involving field work in Africa. Assignments were however an important part of my work also during the years when I worked at the Norwegian Agricultural Economics Research Institute, mainly on pollutions from agriculture. The following list includes my most important assignments; that means minor desk studies have been omitted. In parenthesis, I have mentioned the client of the assignment.

- 2009: Institutional cooperation with Bunda College, Malawi. Field visits in Malawi and attendance of annual meetings for Bunda College Capacity Building Programme and Agricultural Research and Development Programme.
- 2007- : Conservation Agriculture in Zambia - Monitoring and evaluation. Team leader. (Conservation Farming Unit under Zambia National Farmers' Union)
- 2007-2008: Study on long-term impacts of on-farm research conducted during the TARPII-SUA program in Tanzania 2000-2005. Team leader.
- 2006-2007: Rural focus of Poverty Reduction Strategies - case study of Ethiopia. Team leader. (NORAD/IFAD)

- 2005- 2010: Research Impact Assessment Team under the Programme for Agricultural and Natural Resources Transformation for Improved Livelihoods. Team member. (Sokoine University of Agriculture, Tanzania)
- 2000-2005: Coordinator of the Norwegian research participation in the program 'Food security and household income for small-holder farmers in Tanzania: applied research with emphasis on women (Sokoine University of agriculture, Tanzania)
- 2000: Evaluation of the Zula Development Programme in Eritrea. Team member (Norwegian Church Aid)
- 2000: Evaluation of a seminar series on micro credit (The Norwegian Development Network)
- 1999: Evaluation of the Um Jawasir project, Sudan. Team leader (Dryland Co-ordination Group)
- 1999: Revision of the research program proposal 'Food security and household income for small-holder farmers in Tanzania'. Team member (NORAD)
- 1997: Second review of the Um Jawasir project. Team leader (NORAD/SSE)
- 1997: Cost effectiveness analysis of donor-funded development projects (NORAD)
- 1996/97: Land degradation in Tanzania. Team member (World Bank)
- 1996: Environmental indicators for development activities, Sahel countries. Team member (NORAD)
- 1995-96: Phosphate rock as a capital investment. Team leader for case study in Zimbabwe (World Bank)
- 1995: Review of the Sinkat project and Um Jawasir project, Sudan. Team leader (NORAD/SSE)
- 1993-94: The Tanzanian fuelwood market (Ecology & Development Programme, NLH)
- 1990: Assessment of possibilities and limitations in applying the Polluter Pays Principle to agriculture (Ministry of Environment, Norway)
- 1988: Assessment of costs involved in reducing pollutions from agriculture to Lake Mjøsa and to Inner Oslo Fjord (State Pollution Control Authority, Norway).
